

# Meet Your Team

***Brenda Brosnan, Sr. Loan Consultant/Branch Manager, NMLS #137749***

I am the Senior Loan Officer of the team and the Branch Manager of Summit Funding, Inc. When you call us to help with your home financing, you inherit a team of devoted people whose number one goal is to help you understand the loan process, help you choose the best loan for your needs, and to be available at all times to help ease your stress! Today's lending environment is a bit complicated and hard to understand. Our focus is to help make it as stress-free and enjoyable as possible. I cannot be at all places at all times, so I have a great team to take great care of you when I'm with another client! I have over 20 years in lending and was an underwriter so I know the guidelines and believe in "no surprises!" We deliver what we promise and we are known for closing loans on-time!

***Lisa Kwolek, Loan Consultant/Pre-approval Specialist NMLS #317193***

Lisa is a licensed loan officer with over 17 years in lending and a duplicate of me. She can meet with you, help you get preapproved and insure that we get every document we need to accomplish your goal of home ownership. Lisa can answer any questions regarding anything about mortgages. Once we take your official loan application, she is your main point of contact and her job is to expedite the loan process while delivering "World Class Service" all the way to an on-time closing! At times you may get irritated with her document requests, but it is all part of our lending environment today!

***Stacey Siklich, Pre-approval Specialist***

Stacey is a pre-approval specialist and will help you start the process of getting preapproved. She works in conjunction with Lisa on getting your loan pre-approved and will communicate consistently with you throughout the preapproval process. She assists Lisa in getting your loan ready for underwriting and ready for your closing. She is always available to help you navigate through the loan process and to make sure you understand every aspect of getting to the closing table.

***Jaclyn Lapham, Client Concierge***

Jaclyn is our client concierge and she is the first person anyone talks to when they call our team. She will direct your call to Stacey, Lisa or me to help you start the process of getting a loan or to help get any questions answered you might have during the process. She also helps me manage my calendar and can always schedule time for you to meet or speak with me. She also helps Lisa and Stacey with final details of getting your loan ready for underwriting and closing.

***Diana Gipe, Marketing and Sales Coordinator***

Diana is our marketing and sales coordinator. She helps our team in all aspects of making sure you have a World Class Experience when you choose us to help you with your home financing. She helps me to better stay in touch with our Referral Partners and you, our client, once you have already closed on your loan. Once we help you, we want you to know we are still here to assist you with any need you have at any time. Our goal as a team is to make your experience a great one so that you want to refer your friends, family and co-workers to us knowing confidently that we will take great care of them!
